### Website Title: Mangosteen (The hidden gem of fruits!)

- I would like to build this website as one continuous scroll where on the top bar you can click on different categories and the page will take you to the different subcategories of the page.
- There are a ton of images and illustrations about Mangosteen so I am not too worried about content.
- **Intro:**
  - An introduction to the fruit (as most have not seen what it looks like)
  - Origins and taste
- **Propagation and Harvest:**
  - Explaining the propagation/harvest process-specifically how much each harvest yields and how the fruits grow.
  - What conditions are needed for this fruit to grow.
- **Tree and Fruit**
  - Process of growth- how the striking pigmentation of the fruit happens (scientific explanation)
- **Uses:**
  - Culinary
  - Medicinal
  - Dye
- **Sources**
  - Using mostly the Wikipedia page as my source with supplementary source images from flickr

Legacy Sources – this page will just list sources, including the Wikipedia page, as well as other sources for photography, and any other credits that need to be provided.
